Influencer Intellectual Property & Non-Disclosure Agreement

Notice to Prospective Influencers and Partners: By proceeding with registration, purchasing a core product, and participating in our affiliate program, you acknowledge that you are entering into a binding commercial and legal agreement with Human Investigation Management managed by the Author Juan Kirsten.

Our investigation frameworks, behavioral analysis methodologies, operational training clips, and digital assets represent proprietary intellectual property developed through extensive research. Unauthorized duplication, reverse-engineering, piracy, or commercial exploitation will be met with immediate legal recourse.

Section 1: Perpetual Intellectual Property Protection

- **Ownership of Assets:** All training materials, video clips, frameworks, documents, tools, and digital content provided through our platform remain the exclusive, sole property of Human Investigation Management.
- **Forever-Lasting Obligations:** The non-disclosure, anti-piracy, and intellectual property protection terms outlined in this agreement are perpetual. They survive the termination of your influencer or affiliate account, expiration of access windows, and any future cessation of our partnership. You are permanently prohibited from reproducing, distributing, sub-licensing, or adapting our proprietary frameworks at any time, now or in the future.
- **No Right to Copy or Resell:** Access granted for review, evaluation, or promotional marketing does not convey ownership rights, right of storage, or permission to download and redistribute source files.

Section 2: Commercial Consideration & Product Verification Token

- **Binding Consideration:** To establish a valid, enforceable commercial contract and provide formal proof of purchase for our legal oversight file, all prospective influencers must complete the mandatory purchase of any one of our three core platform products prior to submitting an affiliate application.
- **Audit Trail:** This financial transaction ties your legal identity, payment method, and WooCommerce Order ID directly to your binding acknowledgment of these terms, eliminating any claim of uncompensated or informal association.

Section 3: Oversight, Monitoring, & Enforcement

- **Digital Forensics & Watermarking:** Content accessed through our platform may be dynamically watermarked and monitored via access logs to protect against unauthorized capture or distribution.
- **Immediate Revocation & Legal Action:** Any breach of these terms—including suspected attempts to harvest content, reverse-engineer tools, or establish competing frameworks using our proprietary data—will result in:
 1. Instant termination of your affiliate status and forfeiture of any unpaid commissions.
 2. Immediate revocation of system and content access.
 3. Immediate escalation to legal counsel for damages, injunctive relief, and recovery of legal fees (Payment for a product is the baseline proof of concept serving as foundational contract documentation).

Agreement Executed and Enforced By: Juan Kirsten
